DETAILED ACTION

Response to Applicant's Amendment

1. Based upon the submitted amendments, entered by RCE, the examiner notes that claim 10 is amended and claims 2 and 6 are cancelled.
2. Examiner withdraws all rejections to all claims based on the clarification of the claims in the examiner's statement of reasons for allowance below.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification,

The heading "Field of Invention" has been added before the first paragraph on page 1.

The heading "Background" has been added before the second paragraph on page 1.

The heading "Summary" has been added before the third paragraph on page 1.

The heading "Brief Description of the Drawings" has been added between lines 12 and 13 on page 4.

The heading "Detailed Description of the Preferred Embodiments" has been added between lines 22 and 23 on page 4.

In the Drawings,

The label 'Prior Art' has been placed underneath Fig. 1.

Allowable Subject Matter

4. **Claims 1,3-5,7-12** are allowed over the prior art of record
5. The following is an examiner's statement of reasons for allowance:

In the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art first to provide the exact gain specified by the equations in the claims in the communications system of Kakuishi.

The examiner notes that the 'suitable gain' phrase in the claims is read to mean the terms $G1(Z1)$ and $G2(Z1)$ (defined earlier in the claim) are applied to transmit and receive signals respectively. Additionally, the recited claim element of an 'estimate of the transfer function' (or a method step of 'estimating the transfer function') is read to be the specific steps of calculating the estimate $K(Z1)$ according to the exact equations for the transfer function $K(Z1)$ specified in each claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
